Roadside Help for Your Commercial Vehicle

Summer's heat can take a toll on the vehicle that's so important to your business. But by adding Roadside Assistance when you purchase a new Kemper Commercial Auto* policy, you can be sure that if something does happen to your vehicle, help is swiftly on the way to get you back on the road and back in business as soon as possible. And unlike other insurers, our Roadside Assistance program has no weight restriction.

With one toll-free call, you get 24/7 access to these important services:

- Emergency towing**
- Lost key and lock-out service
- Flat tire service
- Emergency battery service
- Winching/extrication

What's more, when you use these services, there are no claim forms to fill out and nothing to pay.

All roadside services are provided by Nation Safe Drivers, a leading provider of towing and roadside assistance.

To add this important program to your Kemper Commercial Auto policy and give yourself greater peace of mind this summer, contact your Independent Agent or Broker today.

** Commercial Auto is available in Arizona, California, Colorado, Oregon, Texas and Washington. Some restrictions apply.*

*** Our Roadside Assistance covers towing up to \$300 for a covered claim; maximum of five claims per policy term.*
